DESIGN & MANUFACTURE
FROM CONCEPT TO COMPLETION

GENERON

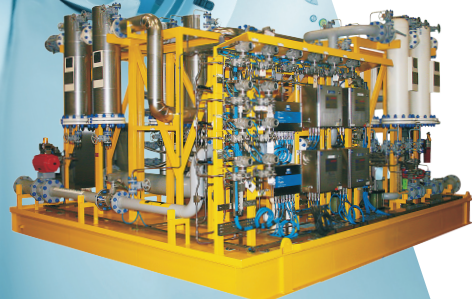

At GENERON, we meet all your air & gas separation and compression needs.

Industry Leader | Customized Solutions

As a full-service provider, we have the capabilities to design and manufacture in-house, allowing for easy modifications and hands-on quality control. You'll get turn-key servicing systems that will reduce overhead, improve quality control and accountability, and provide on-time delivery.

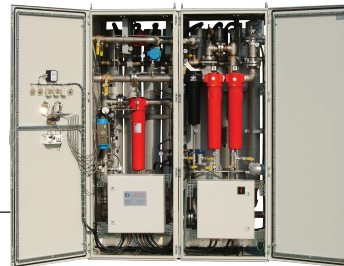

Our systems are installed around the world, both onshore and offshore.

Because we manufacture our own membranes® and packages, we can easily customize to your specifications and needs.

- ♦ Full Industrial and Marine Product Lines
- ♦ Full-Service Rental Fleet:
 - Nitrogen, Primary and Post Compression
- ♦ Fully Equipped Manufacturing Facilities
- ♦ Membrane® Dryers and Dehydration Systems
- ♦ Nitrogen Purities up to 99.999%
 - Nitrogen Membrane® Systems
 - PSA Systems
- ♦ Parts and Service Programs
- ♦ Waste-to-Energy Systems

TRUSTED AROUND THE WORLD

GENERON operates ISO 9000, ASME, UL, CSA, PED, and GOST certified facilities and shops in Texas and California, as well as facilities in China.

With services centers located throughout the United States, Mexico, Europe, the United Arab Emirates, Korea, China, Malaysia, the Middle East, and South America, we meet the needs of the world's top companies in industries including:

- | | |
|-----------------------|---------------------------------|
