

RECIPROCATING COMPRESSOR PACKAGES

OIL LUBRICATED

GENERON offers 2hp to 10,000hp, (1.5kw—7,457kw). Industry proven engineered OIL-LUBE Recip Compression Packages, built to any technical specification using engine or electric motor drives. Our packages move large volumes of air or gas, from ambient or elevated suction pressures, to discharge pressures up to 10,000 psig, (690barg).

At **GENERON**, our engineering, design and fabrication departments are all under one roof. This not only allows us to be extremely competitive, it allows the easy mitigation of environmental or design changes.

GENERON provides single source responsibility and efficient fabrication of your system from concept to completion. Contact our engineering team today at **713.937.5200** or **www.generon.com** for more information.

FEATURING:

- Pressures up to 10,000 psig, (690 barg)
- Air or Water Cooled
- Custom Engineered Packages
- Flow Rates up to 35 MMSCFD, (41,000m³/hr)
- Safe to Hazardous Locations
- Onshore and Offshore Installations

TYPICAL APPLICATIONS:

- Air Separation
- Alternate Fuel
- Chemical Process Plants
- Gas Gathering
- Gas Lift
- Gas Turbine Fuel Boosting
- Instrument Air
- Inert Gas Compression
- Natural Gas Compression For NGL
- Offshore Seismic Energy Source
- Pipeline Transmissions
- Process Gas
- Rig Tensioning
- Vapor Recovery- VRU
- Wellhead Compression
