

ROTARY SCREW COMPRESSOR PACKAGES

OIL FLOODED

GENERON offers 2hp to 5,000hp, (0.38kw—3,730kw). Industry proven engineered rotary screw compression packages built to any technical specification either engine or electric drive, for moving large volumes at lower suction with discharge pressures up to 600psig, (41barg).

At **GENERON** our engineering, design and fabrication departments are all under one roof. This not only allows us to be extremely competitive, but allows the easy mitigation of environmental or design changes. **GENERON** provides single source responsibility and efficient fabrication of your system from concept to completion. Contact our engineering team at **713.937.5200** or **www.generon.com** for more information.

AUTHORIZED PACKAGER OF:

LeROI, Sullair, Gardner-Denver, RotorComp, Kaeser, Ingersol-Rand, Kobelco, GEA, Mycom, & York

FEATURING:

- Pressures up to 600 psig, (41barg)
- Safe or Hazardous Locations
- Air or Water cooled
- Flow rates up to 5000cfm, (8,500m³/hr)
- Standard or engineered packages
- Turnkey projects
- Class Zero Air (Silicon Free)

TYPICAL APPLICATIONS:

- Air Separation
- Biogas
- Coal Seam
- Gas Gathering
- Instrument Air
- Landfill
- Process Gas
- Vapor Recovery (VRU)
- Wellhead Compression
