

ROTARY SCREW COMPRESSOR PACKAGES

OIL FREE

GENERON offers 20hp to 500hp, (15.kw—373kw) Industry proven engineered rotary screw compression packages built to any technical specification either engine or electric drive, for moving large volumes at low suction with discharge pressures up to 155psig, (10.7barg).

At **GENERON** our engineering, design and fabrication departments are all under one roof. This not only allows us to be extremely competitive, but allows the easy mitigation of environmental or design changes.

GENERON provides single source responsibility and efficient fabrication of your system from concept to completion. Contact our engineering team at **713.937.5200** or **www.generon.com** for more information.

FEATURING:

- Pressures up to 155 psig,, (10.7barg)
- Safe or Hazardous Locations
- Air or Water cooled
- Flow rates up to 2000 cfm, (3,400 m³/hr)
- Standard or engineered packages
- Turnkey projects

TYPICAL APPLICATIONS:

- Breathing Air
- Food processing
- Instrument Air
- Medical
- Semi Conductor manufacturing
- Wine
